Dear Dr. Ng:

**Re: Protocol # 20150491-01H Study of Patient Healthcare in Shanghai for the Establishment a Family
Medicine Demonstration Clinic**

Protocol approval valid until - August 10, 2016

I am pleased to inform you that this protocol underwent delegated review by the Ottawa Health Science Network Research Ethics Board (OHSN-REB) and is approved. No changes, amendments or addenda may be made to the protocol or the consent form without the OHSN-REB's review and approval.

APPROVAL IS CONDITIONAL UPON RECEIPT OF THE RENJI HOSPITAL RESEARCH ETHICS BOARD APPROVAL.

Approval is for the following:

- Protocol dated June 23, 2015
- English Shanghai Health Care Patient Survey, uploaded August 11, 2015
- English Participant Informed Consent Form (version 1) dated July 27, 2015

Your request for a French exemption is approved. Please provide the Mandarin Chinese versions of the consent form and survey once available.

The REB no longer requires a 'valid until' date at the bottom of all approved informed consent forms. The consent forms currently approved for use by the REB are listed above.

If the study is to continue beyond the expiry date noted above, a Renewal Form should be submitted to the REB approximately six weeks prior to the current expiry date. If the study has been completed by this date, a Termination Report should be submitted.

The Ottawa Health Science Network Research Ethics Board (OHSN-REB) was created by the merger of both the Ottawa Hospital Research Ethics Board (OHREB) and the Human Research Ethics Board (HREB) for meetings held at the University of Ottawa Heart Institute.

OHSN-REB complies with the membership requirements and operates in compliance with the Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans; the International Conference on Harmonization - Good Clinical Practice: Consolidated Guideline and the provisions of the Personal Health Information Protection Act 2004.

Yours sincerely,
